To Whom It May Concern,

I have pleasure in providing Steve Levi from All Alert Security a personal reference. I have known Steve for the past 15 years, firstly as a qualified tradesperson when I was in the building trade renovating kitchens and bathrooms and now when renovating my own current shop. Steve has installed a Ness security alarm system and connected it back-to-base with Central Monitoring Services as well as installing my shop lighting.

Steve has displayed over these years skills you can expect from a qualified tradesperson. He has sound knowledge in the field and above all has demonstrated honesty in my shop and my home. Steve has a mild and understanding manner when dealing directly with customers. Steve has never disappointed me as an individual, a friend or a professional. I wish him well with his security business.

Sincerely

Mikel McManus
